Can you think of

one good reason

to get a

free

mammogram

and Pap test?

Of course you can.

Don't let cancer come

between you

and those you *love.*

Call **1-866-395-4968** for a FREE mammogram and Pap test.

Why do these tests provide peace of mind?

Out of every 1,000 mammograms, only one or two lead to a diagnosis of cancer. In the case of Pap tests, only about six percent show abnormalities. The screening tests themselves are quick, simple, and provide minimal discomfort. Your appointment will also include a free clinical breast and pelvic exam.

More important, if these tests do lead to a diagnosis of cancer, the chances for successful treatment and a complete cure increase dramatically with early detection. And Medicaid may provide all your treatment free of charge.

Who qualifies for free testing?

Screening is free if ALL of the following describe you:

• 40-64 years of age

*limited appointments available for 40-49

• A resident of Virginia

• Do not have health insurance

• Your yearly income falls within the following guidelines:
